

Paint And Wine Evening

Learn, enjoy and bring your own painting home

On this five hour event you will make your own acrylic painting under professional supervision.

While working on transforming a favorite photo of your pet, flowers, nature or others into a painting you can socialize and enjoy some wine, drinks or cocktails.

In addition to getting an art class in a positive atmosphere you can buy equipment to continue your painting career at home.

How it works

All participants will be provided with paint, brushes, canvas and an easel. You can bring your own photos or be given some templates or ideas at the beginning of the session.

You will be assisted from the start when we transfer a design to the canvas. Thereafter you will be taught to mix colors and given an introduction to basic painting techniques.

While working on your painting you will receive guidance and help.

The target is to finish one canvas painting during the event and you can bring home your first piece of artwork. And that we can enjoy good drinks, tasty snacks with good conversation while we laugh and learn.

Make a special event for your friends, a special birthday party or a corporate event.
